Silvosol

# Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

#### 1.1 Product identifier

## **Silvosol**

## 1.2 Relevant identified uses of the substance or mixture and uses advised against Relevant identified uses of the substance or mixture:

Cleaner

#### Uses advised against:

No information available at present.

## 1.3 Details of the supplier of the safety data sheet

(GB

PRIMUS BEIER & Co. GmbH & Co. KG, Ruhpoldinger Strasse 5, 81825 München, Germany Phone: +49 (0)89 43 25 64, Fax: +49 (0)89 4 31 01 21 info@primus-beier.de

Qualified person's e-mail address: info@chemical-check.de, k.schnurbusch@chemical-check.de Please DO NOT use for requesting Safety Data Sheets.

#### 1.4 Emergency telephone number

Emergency information services / official advisory body:

---

## Telephone number of the company in case of emergencies:

+49 (0)89 43650063 (Mon. - Thu. 8.00 - 16.00 Uhr, Fri. 8.00 - 14.00 Uhr)

Lieferant | Supplier:
Carl Roth GmbH + Co KG
Schoemperlenstr. 3-5
Schoemperlenstr. 3-6
Schoemperlenstr. 3-5
49 721 5606 0
49 721 5606 0
sicherheit@carlroth.de

#### **SECTION 2: Hazards identification**

#### 2.1 Classification of the substance or mixture

## Classification according to Regulation (EC) 1272/2008 (CLP)

Hazard class Hazard category Hazard statement
Carc. 2 H351-Suspected of causing cancer.

Repr. 2 H361d-Suspected of damaging the unborn child.
Aquatic Chronic 3 H412-Harmful to aquatic life with long lasting effects.

Met. Corr. 1 H290-May be corrosive to metals.

#### 2.2 Label elements

## Labeling according to Regulation (EC) 1272/2008 (CLP)

Warning

H351-Suspected of causing cancer. H361d-Suspected of damaging the unborn child. H412-Harmful to aquatic life with long lasting effects. H290-May be corrosive to metals.

P201-Obtain special instructions before use. P280-Wear protective gloves/protective clothing and eye protection/face protection. P308+P313-IF exposed or concerned: Get medical advice/attention. P390-Absorb spillage to prevent material damage.

Silvosol

Thiourea

#### 2.3 Other hazards

The mixture does not contain any vPvB substance (vPvB = very persistent, very bioaccumulative) or is not included under XIII of the regulation (EC) 1907/2006.

The mixture does not contain any PBT substance (PBT = persistent, bioaccumulative, toxic) or is not included under XIII of the regulation (EC) 1907/2006.

Hazardous to drinking water, on escape of even small quantities.

## **SECTION 3: Composition/information on ingredients**

#### 3.1 Substance

## n.a. 3.2 Mixture

| OIZ MIXEGIO   |                         |
|---|-------------------------|
| Thiourea  |                         |

| Classification according to Regulation (EC) 1272/2008 (CLP) | Eye Irrit. 2, H319 |

For the text of the H-phrases and classification codes (GHS/CLP), see Section 16.

The substances named in this section are given with their actual, appropriate classification!

For substances that are listed in appendix VI, table 3.1/3.2 of the regulation (EC) no. 1272/2008 (CLP regulation) this means that all notes that may be given here for the named classification have been taken into account.

#### **SECTION 4: First aid measures**

#### 4.1 Description of first aid measures

#### Inhalation

Supply person with fresh air and consult doctor according to symptoms.

#### Skin contact

Wash thoroughly using copious water - remove contaminated clothing immediately. If skin irritation occurs (redness etc.), consult doctor.

#### Eve contact

Remove contact lenses.

Wash thoroughly for several minutes using copious water. Seek medical help if necessary.

Page 3 of 13

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

Silvosol

#### Ingestion

Rinse the mouth thoroughly with water.

Do not induce vomiting - give copious water to drink. Consult doctor immediately.

#### 4.2 Most important symptoms and effects, both acute and delayed

If applicable delayed symptoms and effects can be found in section 11 and the absorption route in section 4.1. In certain cases, the symptoms of poisoning may only appear after an extended period / after several hours.

The following may occur:

Irritation of the eyes

Irritation of the skin.

#### 4.3 Indication of any immediate medical attention and special treatment needed

n.c.

#### **SECTION 5: Firefighting measures**

## 5.1 Extinguishing media

## Suitable extinguishing media

Adapt to the nature and extent of fire.

Water jet spray / alcohol resistant foam / CO2 / dry extinguisher

#### Unsuitable extinguishing media

n.c.

#### 5.2 Special hazards arising from the substance or mixture

In case of fire the following can develop:

Oxides of carbon

Oxides of sulphur

Oxides of nitrogen

Oxides of phosphorus

Toxic gases

## 5.3 Advice for firefighters

In case of fire and/or explosion do not breathe fumes.

Protective respirator with independent air supply.

According to size of fire

Full protection, if necessary

Dispose of contaminated extinction water according to official regulations.

#### **SECTION 6: Accidental release measures**

#### 6.1 Personal precautions, protective equipment and emergency procedures

Keep unprotected persons away.

Ensure sufficient supply of air.

Avoid contact with eyes or skin.

If applicable, caution - risk of slipping

#### 6.2 Environmental precautions

If leakage occurs, dam up.

Resolve leaks if this possible without risk.

Prevent surface and ground-water infiltration, as well as ground penetration.

Prevent from entering drainage system.

If accidental entry into drainage system occurs, inform responsible authorities.

#### 6.3 Methods and material for containment and cleaning up

Soak up with absorbent material (e.g. universal binding agent, sand, diatomaceous earth, sawdust) and dispose of according to Section 13.

Neutralising is possible (only from a specialist).

Flush residue using copious water.

#### 6.4 Reference to other sections

For personal protective equipment see Section 8 and for disposal instructions see Section 13.

#### **SECTION 7: Handling and storage**

In addition to information given in this section, relevant information can also be found in section 8 and 6.1.

#### 7.1 Precautions for safe handling

#### 7.1.1 General recommendations

Avoid contact with eyes or skin.

Page 4 of 13

Safety data sheet according to Regulation (EC) No 1907/2006, Annex II

Revised on / Version: 12.06.2015 / 0004

Silvosol

Eating, drinking, smoking, as well as food-storage, is prohibited in work-room.

Pregnant women should avoid contact with this product. Observe directions on label and instructions for use. Use working methods according to operating instructions.

#### 7.1.2 Notes on general hygiene measures at the workplace

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

## 7.2 Conditions for safe storage, including any incompatibilities

Keep out of access to unauthorised individuals.

Not to be stored in gangways or stair wells.

Store product closed and only in original packing.

Do not use acid sensitive materials.

Store at room temperature.

#### 7.3 Specific end use(s)

No information available at present.

#### **SECTION 8: Exposure controls/personal protection**

#### 8.1 Control parameters

| Chemical Name             | Phosphoric acid  | Content %:1-<br><10 |
|---------------------------|--|---------------------|
| WEL-TWA: 1 mg/m3 (WEL, EU | WEL-STEL: 2 mg/m3 (WEL, EU)  |                     |
| Monitoring procedures:    | DFG (2) (Inorganic acids mist) - 2002 - EU project BC/CEN/El card 94-2 (2004)  MTA/MA-019/A90 (Determination of inorganic acid anions in a OSHA ID-165SG (Acid mist in workplace atmospheres) - 1985 OSHA ID-111 (Phosphoric Acid in Workplace Atmospheres) NIOSH 7903 (Acids, inorganic) - 1994 | air)                |
| BMGV:                     | Other information:   |                     |
| Chemical Name             | Glycerine  | Content %:          |
| WEL-TWA: 10 mg/m3 (mist)  | WEL-STEL:  |                     |
| Monitoring procedures:    | <sub>-</sub>   |                     |
| BMGV:                     | Other information:   |                     |

WEL-TWA = Workplace Exposure Limit - Long-term exposure limit (8-hour TWA (= time weighted average) reference period) EH40. AGW = "Arbeitsplatzgrenzwert" (workplace limit value, Germany). | WEL-STEL = Workplace Exposure Limit - Short-term exposure limit (15-minute reference period). | BMGV = Biological monitoring guidance value EH40. BGW = "Biologischer Grenzwert" (biological limit value, Germany) | Other information: Sen = Capable of causing occupational asthma. Sk = Can be absorbed through skin. Carc = Capable of causing cancer and/or heritable genetic damage.

<sup>\*\* =</sup> The exposure limit for this substance is repealed through the TRGS 900 (Germany) of January 2006 with the goal of revision.

| Phosphoric acid     |                    |                          |           |       |       |      |  |  |  |
|---------------------|--------------------|--------------------------|-----------|-------|-------|------|--|--|--|
| Area of application | Exposure route /   | Effect on health         | Descripto | Value | Unit  | Note |  |  |  |
|                     | Environmental      |                          | r         |       |       |      |  |  |  |
|                     | compartment        |                          |           |       |       |      |  |  |  |
| Workers / employees | Human - inhalation | Long term, local effects | DNEL      | 2,92  | mg/m3 |      |  |  |  |
| Consumer            | Human - inhalation | Long term, local effects | DNEL      | 0,73  | mg/m3 |      |  |  |  |

#### 8.2 Exposure controls

#### 8.2.1 Appropriate engineering controls

Ensure good ventilation. This can be achieved by local suction or general air extraction.

If this is insufficient to maintain the concentration under the WEL or AGW values, suitable breathing protection should be worn. Applies only if maximum permissible exposure values are listed here.

#### 8.2.2 Individual protection measures, such as personal protective equipment

General hygiene measures for the handling of chemicals are applicable.

Wash hands before breaks and at end of work.

Silvosol

Keep away from food, drink and animal feedingstuffs.

Remove contaminated clothing and protective equipment before entering areas in which food is consumed.

Eye/face protection:

Tight fitting protective goggles with side protection (EN 166).

Skin protection - Hand protection:

Use acid resistant protective gloves (EN 374).

If applicable

Rubber gloves (EN 374).

Protective nitrile gloves (EN 374)

Minimum layer thickness in mm:

0,5

Permeation time (penetration time) in minutes:

480

The breakthrough times determined in accordance with EN 374 Part 3 were not obtained under practical conditions.

The recommended maximum wearing time is 50% of breakthrough time.

Protective hand cream recommended.

Skin protection - Other:

Protective working garments (e.g. safety shoes EN ISO 20345, long-sleeved protective working garments)

Respiratory protection:

Normally not necessary.

Thermal hazards:

to manufacturer.

Not applicable

Additional information on hand protection - No tests have been performed.

In the case of mixtures, the selection has been made according to the knowledge available and the information about the contents. Selection of materials derived from glove manufacturer's indications.

Final selection of glove material must be made taking the breakthrough times, permeation rates and degradation into account. Selection of a suitable glove depends not only on the material but also on other quality characteristics and varies from manufacturer

In the case of mixtures, the resistance of glove materials cannot be predicted and must therefore be tested before use.

The exact breakthrough time of the glove material can be requested from the protective glove manufacturer and must be observed.

#### 8.2.3 Environmental exposure controls

No information available at present.

#### **SECTION 9: Physical and chemical properties**

## 9.1 Information on basic physical and chemical properties

Physical state: Liquid

Colour: According to specification

Odour: Characteristic
Odour threshold: Not determined
pH-value: Not determined
Melting point/freezing point: Not determined

Initial boiling point and boiling range:  $\sim 100 \, ^{\circ}\text{C}$  Flash point:  $\sim 100 \, ^{\circ}\text{C}$  n.a.

Evaporation rate: Not determined Flammability (solid, gas): Not determined Lower explosive limit: Not determined Upper explosive limit: Not determined Vapour pressure: Not determined Vapour density (air = 1): Not determined Density: 1,06 g/cm3 (20°C) Bulk density: Not determined Solubility(ies): Not determined

Water solubility: Mixable Partition coefficient (n-octanol/water): Not determined

Auto-ignition temperature: 440 °C (Ignition temperature )

Auto-ignition temperature:

Decomposition temperature:

Viscosity:

Not determined

Not determined

Silvosol

Explosive properties: Product is not explosive.

Oxidising properties:

9.2 Other information

Miscibility:

Fat solubility / solvent:

Conductivity:

Not determined

Not determined

Not determined

Surface tension:

Not determined

Not determined

Not determined

Not determined

## **SECTION 10: Stability and reactivity**

## 10.1 Reactivity

The product has not been tested.

#### 10.2 Chemical stability

Stable with proper storage and handling.

#### 10.3 Possibility of hazardous reactions

Avoid contact with strong alkalis (exothermic reaction possible).

#### 10.4 Conditions to avoid

See also section 7.

None known

#### 10.5 Incompatible materials

See also section 7.

Avoid contact with strong alkalis.

Avoid contact with strong oxidizing agents.

Avoid contact with acid sensitive materials.

#### 10.6 Hazardous decomposition products

See also section 5.2

No decomposition when used as directed.

## **SECTION 11: Toxicological information**

Possibly more information on health effects, see Section 2.1 (classification).

| Silvosol                         |        |       |       |          |             |                          |  |

## **SECTION 13: Disposal considerations**

#### 13.1 Waste treatment methods

#### For the substance / mixture / residual amounts

EC disposal code no.:

The waste codes are recommendations based on the scheduled use of this product.

Owing to the user's specific conditions for use and disposal, other waste codes may be

allocated under certain circumstances. (2014/955/EU)

20 01 29 detergents containing hazardous substances

Recommendation:

Sewage disposal shall be discouraged.

Pay attention to local and national official regulations

E.g. suitable incineration plant.

E.g. dispose at suitable refuse site.

#### For contaminated packing material

Pay attention to local and national official regulations

Empty container completely.

Uncontaminated packaging can be recycled.

Dispose of packaging that cannot be cleaned in the same manner as the substance.

## **SECTION 14: Transport information**

#### **General statements**

UN number: 3264

#### Transport by road/by rail (ADR/RID)

UN proper shipping name:

UN 3264 CORROSIVE LIQUID, ACIDIC, INORGANIC, N.O.S. (PHOSPHORIC ACID, LIQUID)

Transport hazard class(es): 8 Ш Packing group: Classification code: C1

Not applicable

LQ (ADR 2015): 5 L Environmental hazards:

Silvosol

Tunnel restriction code:

Е

#### Special precautions for user

Persons employed in transporting dangerous goods must be trained. All persons involved in transporting must observe safety regulations.

Precautions must be taken to prevent damage.

#### Transport in bulk according to Annex II of MARPOL and the IBC Code

Freighted as packaged goods rather than in bulk, therefore not applicable.

Minimum amount regulations have not been taken into account.

Danger code and packing code on request.

Comply with special provisions.

## **SECTION 15: Regulatory information**

#### 15.1 Safety, health and environmental regulations/legislation specific for the substance or mixture

National rules/regulation for the compliance with maximum quantities with regard to phosphates and or phosphorous compounds must be observed and complied with.

For classification and labelling see Section 2.

Observe restrictions:

Comply with trade association/occupational health regulations.

Observe youth employment law (German regulation).

Observe law on protection of expectant mothers (German regulation).

Directive 2010/75/EU (VOC):

#### 15.2 Chemical safety assessment

A chemical safety assessment is not provided for mixtures.

#### **SECTION 16: Other information**

Revised sections:

1 - 16

These details refer to the product as it is delivered.

Employee instruction/training in handling hazardous materials is required.

Employee training in handling dangerous goods is required.

## Classification and processes used to derive the classification of the mixture in accordance with the ordinance (EG) 1272/2008 (CLP):

| Classification in accordance with regulation | Evaluation method used                             |
|--|--|
| (EC) No. 1272/2008 (CLP)                     |  |
| Carc. 2, H351                                | Classification according to calculation procedure. |
| Repr. 2, H361d                               | Classification according to calculation procedure. |
| Aquatic Chronic 3, H412                      | Classification according to calculation procedure. |
| Met. Corr. 1, H290                           | Classification based on test data.                 |

The following phrases represent the posted Hazard Class and Risk Category Code (GHS/CLP) of the product and the constituents (specified in Section 2 and 3).

H361d Suspected of damaging the unborn child.

H290 May be corrosive to metals.

H302 Harmful if swallowed.

H314 Causes severe skin burns and eye damage.

H319 Causes serious eye irritation.

H351 Suspected of causing cancer.

H411 Toxic to aquatic life with long lasting effects.

Carc. — Carcinogenicity

Repr. — Reproductive toxicity

Aquatic Chronic — Hazardous to the aquatic environment - chronic

Met. Corr. — Substance or mixture corrosive to metals

Acute Tox. — Acute toxicity - oral Skin Corr. — Skin corrosion

Eye Irrit. — Eye irritation
