

## Safety Data Sheet

### 1. Identification of Product & Company

Product name	GEL-MA INX X210
Product number	DEP-102
CAS number	N/A
Manufacturer	BIO INX BV Technologiepark-Zwijnaarde 66 9052 Ghent, Belgium
General use:	Not for human use, for research only.
Emergency phone number	+32 (0) 499 16 98 94

### 2. Hazards identification

Hazard statement(s)	Not a hazardous substance or mixture.
Precautionary statement(s)	<i>No data available</i>

### 3. Chemical composition

Chemical name	CAS#	EC No.	EC Class
Functionalized Gelatin	N/A	N/A	Not classified as hazardous
Lithium phenyl-2,4,6-trimethylbenzoylphosphinate	85073-19-4	N/A	Not classified as hazardous
Buffer Solution	N/A	N/A	Not classified as hazardous

Lieferant / Supplier:  
 Carl Roth GmbH + Co KG  
 Schoemperlenstr. 3-5  
 76185 Karlsruhe, Germany  
 +49 721 5606 0  
 sicherheit@carlroth.de

### 4. First aid measures

General advice	Move out of dangerous area. Consult a physician. Show this data sheet to the doctor in attendance
Inhalation	Move person to fresh air as quickly as possible. In case of respiratory problems, move person to first aid station for medical treatment. Consult a physician
Skin contact	Wash off with soap and plenty of water for 15 min. If irritation develops consult a physician
Eye contact	Flush with plenty of water to remove particles, remove contact lenses if present. Consult a physician

Ingestion

Rinse mouth with water. Never give anything by mouth to an unconscious person. Consult a physician

## 5. Firefighting measures

Extinguishing media

Water, water/foam, CO<sub>2</sub>, ABC fire extinguisher powder

Specific hazards

Carbon oxides, Oxides of phosphorus, Lithium oxides

Protection for fire-fighters

Do not approach fire in confined space without positive pressure self-breathing apparatus and full bunker gear: bunker coats, helmet with face shield, gloves, rubber boots

## 6. Accidental release measures

Personal precautions

Use personal protective equipment. Avoid dust formation. Avoid breathing vapors, mist or gas. Ensure adequate ventilation. Evacuate personnel to safe areas. Avoid breathing dust

Environmental precautions

No special environmental precautions required.

Cleaning up methods

Vacuum or sweep up and place in standard disposable container. Avoid the use of air jets

## 7. Handling and storage

Precautions

Normal precautions common to safe manufacturing practice should be followed. Avoid contact with skin and eyes. Avoid formation of dust and aerosols. Provide appropriate exhaust ventilation

Storage

Preferably store at temperatures  $\leq 10^{\circ}\text{C}$ . Keep container tightly closed and protect from water and acidic substances

Incompatible products

*No data available*

## 8. Exposure controls/personal protection

Control parameters

Handle in accordance with good industrial hygiene and safety practice. Wash hands before breaks and at the end of workday. Adequate washing facilities, with supplies of mild soap and hand cleanser should be available at all working locations. Solvents should never be used as hand cleansers. Smoking, eating and drinking in working areas should be prohibited

Threshold Limit Value (TLV): a provisional TLV (TWA 8 hours) is advised in accordance with the TLV of non-toxic nuisance dust: 10 mg/m<sup>3</sup> for total dust; 5mg/m<sup>3</sup> for respirable dust

Respiratory protection	Not required under normal operation
Eye/face protection	Protective goggles or safety glasses should be worn. Use equipment for eye protection tested and approved under appropriate government standards
Skin protection	Handle with gloves. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact with this product. Dispose of contaminated gloves after use in accordance with applicable laws and good laboratory practices. Wash and dry hands
Body protection	Complete suit protecting against chemicals, the type of protective equipment must be selected according to the concentration and amount of the dangerous substance at the specific workplace
Control of environmental exposure	Do not let product enter drains

9. Physical and chemical properties

Physical state	Solid (at 20 °C)
Color	Off-white
Odor	No special odor
Odor Threshold	<i>No data available</i>
pH	6.5 – 8.5
Melting point/freezing point	<i>No data available</i>
Initial boiling point and boiling range	<i>No data available</i>
Flash point	<i>No data available</i>
Evaporation rate	<i>No data available</i>
Flammability (solid, gas)	<i>No data available</i>
Upper/lower flammability	<i>No data available</i>
Vapor pressure	<i>No data available</i>
Vapor density	<i>No data available</i>
Relative density	<i>No data available</i>
Water solubility	<i>No data available</i>
Partition coefficient: n-octanol/water	<i>No data available</i>
Auto-ignition temperature	<i>No data available</i>
Decomposition temperature	<i>No data available</i>

Viscosity	<i>No data available</i>
Explosive properties	<i>No data available</i>
Oxidizing properties	<i>No data available</i>
Density	<i>No data available</i>

10. Stability and reactivity

Reactivity	<i>No data available</i>
Chemical stability	Light sensitive.
Possibility of hazardous reactions	Hazardous decomposition products formed under fire conditions. - Carbon oxides, Oxides of phosphorus, Lithium oxides
Conditions to avoid	Freezing
Incompatible materials	Strong oxidizing agents

11. Toxicological information

Acute toxicity	<i>No data available</i>
Skin corrosion/irritation	<i>No data available</i>
Serious eye damage/eye irritation	<i>No data available</i>
Respiratory or skin sensitization	<i>No data available</i>
Germ cell mutagenicity	<i>No data available</i>
Carcinogenicity	No component of this product present at levels greater than or equal to 0.1% is identified as probable, possible or confirmed human carcinogen.
Reproductive toxicity	<i>No data available</i>
Specific target organ toxicity	<i>No data available</i>
Additional information	<i>No data available</i>

*To the best of our knowledge, the chemical, physical, and toxicological properties have not been thoroughly investigated.*

12. Ecological information

Toxicity	<i>No data available</i>
Persistence/degradability	<i>No data available</i> , biodegradable
Bio-accumulative potential	<i>No data available</i>
Mobility in soil	<i>No data available</i>
Results of PBT and vPvB assessment	<i>No data available</i>
Ecotoxicity	No indication that this material is being a risk to the environment. Biodegradable to natural components

## 13. Disposal considerations

This material presents no danger regarding toxicological and/or ecological considerations. Dispose of in accordance with all applicable governmental regulations for non-hazardous solid waste

## 14. Transport information

General precautions

Non-dangerous goods

Special precautions

Non-dangerous goods

## 15. Regulatory information

For this product a chemical safety assessment was not carried out.

## 16. Other information

*No data available*

Disclaimer: To the best of our knowledge, the information contained herein is accurate. However, we cannot assume any liability whatsoever for the accuracy or completeness of the information contained herein. Final determination of the suitability of any material is the sole responsibility of the user. All materials may present unknown hazards and should be used with caution. Although certain hazards are described herein, we cannot guarantee that these are the only hazards that exist.
