

# Specification

|                                               |      |             |            |
|-----------------------------------------------|------|-------------|------------|
| Item number:                                  | T867 |             |            |
| <b>Papanicolaou-orange solution 2a (OG 6)</b> |      |             |            |
| for microscopy                                |      |             |            |
| CAS No.:                                      |      | print date: | 13.11.2018 |
| formula:                                      |      |             |            |
| density:                                      |      |             |            |
| molcular weight:                              |      |             |            |

## Type analysis

|                                   |          |
|-----------------------------------|----------|
| <b>Suitability for microscopy</b> | complies |
|-----------------------------------|----------|

|             |               |
|-------------|---------------|
| Appearance: | orange liquid |
|-------------|---------------|

### Use test:

- at oral mucosa
- core staining with Hematoxylin solution according to Harris - remaining tissue with Papanicolaou Orange G  
cell nuclei: strong blue tissue: strong yellow

Our products are tested for laboratory use only.  
The stated information refers to the current status of product quality.  
We reserve the right to implement necessary changes.
