

Specification

Item number: 9639

Paraloid® B 72

CAS No.:

print date:

01.01.2024

formula:

density:

molecular weight:

Clear, light-resistant thermoplastic acrylic resin for conserving samples. Also ideal for coating and sealing wood, stone, metals and other materials. The coat is permanently stable and non-yellowing. Compatible with cellulose, silicone, PVC and many other plastics and metals. Resistant against water and many chemicals. Dissolves in toluene or ethyl acetate. Can be applied with brush, spray gun or in immersion bath. Hardens by air drying or heat exposure (approx. 30 mins at 150 °C).

Our products are tested for laboratory use only.

The stated information refers to the current status of product quality.

We reserve the right to implement necessary changes.
